height of the bathroom or contrasting areas of tiles in this shower and washbasin spaces add great dimension and interest.

## Accessories

Bathroom accessories add a glamour and beauty in your lifestyle. They include a variety of designer mirrors, motifs and tile borders, storage cabinets, rugs and fashionable ceramics that reorder the bathroom in a pleasant style.

The slate floors, multi colored wall tiles, antiqued tub, different hues of artificial lighting or large skylight transform this space into a beautiful glamour room.

## Modernise with colour

Whether it's through paint color, wall paper, finishes, or bath linens, modernize instantly with a pleasing color palette. Combining sharp lines with a few curved accents and a simple harmony of colors brings in the best of contemporary design into your bathroom.

## Separate zones

Use glass to differentiate wet from dry zone. If you're concerned about getting water everywhere, a glass panel or shower curtain can be used to separate the wet zone from the dry zone. Just make sure it doesn't impede views through the space. A single glass panel with minimal hardware can be installed to avoid any unnecessary splash in the dry zone of the room.

The new bathroom trend today emphasize on a simpler, spacious and cleaner bathrooms that include ergonomics issues, dry bathrooms and water saving techniques, aesthetic designs, LED light systems, and ease of use. The freedom to relax and a spa experience in your own home make way for personal style of individuals creating new emotions, joyful and livelier experience in this newly appreciated spaces.

✿ **THE GLAMOUR BATH** can really be anything you want it to be.

The modern day bathrooms are architecturally integrated into the residential spaces becoming almost like a central focal point. They have come to be full-fledged trendy indulgence centers, adorned with state-of-the-art water and sanitation systems transpiring into larger, open plan spaces of about 75 - 100 sq ft areas giving an ambience of lavish and spaciousness.

Apart from ultra modern bathroom fittings that are readily available in the market, here are a few tips to spice up that space that could make lifestyle statements.

## Beyond the basics

The most common perception of rest rooms is that they are cold because of the tile patterns and cramped atmosphere. Add warmth to the interiors by selecting wood finish and light colored tile prints. Regular monotonous tile laying patterns replaced with flowing combinations both in the floor and the walls, strong horizontal strips of tiles and cohesive patterns are all important to the aesthetic and playful nature of this room. Tiles laid to the full
